STANDIT™

THE VERTICAL STORAGE SOLUTION

Over a decade ago, STANDIT™ was developed to mitigate the safety hazards associated with vertically stored sheet materials, safeguarding team members from potential risks. This innovative solution not only streamlines handling and utilization through its “filing system” but also delivers cost and time savings. Additionally, it provides an added benefit by protecting valuable materials from damage.

Key Features:

- Impressive Load Capacity: Supports up to 500kg per device.
- Sturdy Setup: Easy step-by-step instructions, location & load capacity are available in box & on website.
- Warranty: 24-month coverage for both parts and workmanship.
- Award-Winning Safety: Received the NZIOB Health and Safety Category award in August 2021.
